Features

The design makes the difference. Take a look at the features list below to see how EmporioBagno mirrors and cabinets combine high end styling and exclusive product benefits for an exceptional collection.

Shaver socket

Shaver socket

Integrated shaver socket.

Demister function

Demister function

The heating element attached to the back side of the mirror prevents it from becoming misty with vapour typically present in the bathroom environment. The demister function keeps mirrors clear for a crisp reflection. To save energy, selected mirror models have a dedicated red switch to activate the demister function.

Infrared on/off

Infrared sensor

Mirrors and mirrored cabinets with an infrared sensor can be turned on and off by simply waving your hand in front of the sensor switch.

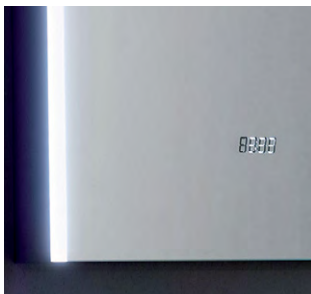

Important Note:

When installing mirrors and mirrored cabinets with an infrared sensor, you will need to ensure that the side with sensor is at least 15cm away from bathroom furniture or walls. Objects placed too close to the sensor will prevent the sensor from working.

Clock

Digital clock

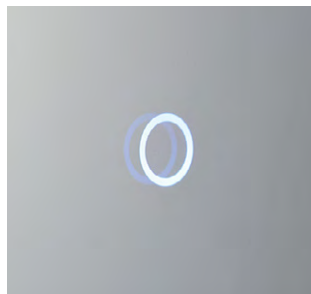

Choose a mirror with a digital clock for an easy way to keep your eye on the time. The illuminated digital clock feature is available on Gemini mirrors.

Touch

Touch On/Off

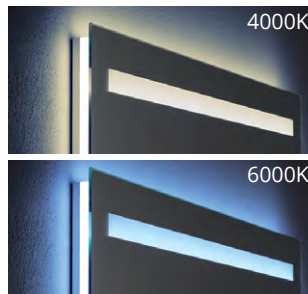

The illuminated touch on/off button is flush to the mirror for a harmonious look. With Dualwhite mirrors, the touch on/off button also controls the LED light setting.

Temperature colour

Dualwhite light setting

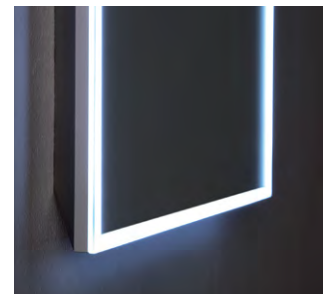

The Dorado, Movie Star, Eclipse and Starlight backlit mirrors have integrated dual illumination (4000K and 6000K settings). By keeping your finger on the touch on/off button for a few seconds, you can switch from cool LED lighting to warm LED lighting.

Energy efficient

High performance with low energy consumption

EmporioBagno mirrors and cabinets are designed with the latest LED technology for high performance with the lowest possible energy consumption.

EmporioBagno®

Music compatible

Bluetooth Technology

Blue-Vibe or “web radio”, is a system of music transmission via Bluetooth from a phone or tablet. Mirrors and cabinets with Bluetooth technology have a vibrating speaker to emit the sound. Enjoy your playlist while getting ready to set the mood for your day or evening out.

Ambient lighting

Ambient lighting

Some mirrors and cabinets have LED lighting inserted into the metal frame for a soft lighting effect which spreads to the surrounding area. The ambient lighting adds an element of sophistication to your bathroom setting.

3X Magnifying mirror

3X Magnification

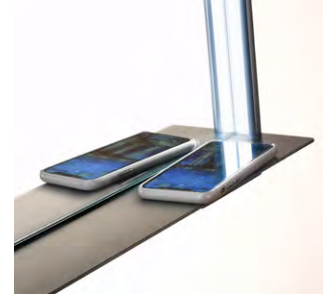

A 3x illuminated magnifying mirror allows you to perform grooming tasks requiring closer attention to detail with minimum effort. The magnifying mirror is available on the Lybra and Dorado mirror models. Lybra and Dorado also have Dualwhite so you can adjust the colour of the LED lighting around the magnifying mirror to a cool white or warm white setting.

Phone charger

Phone charger

Wireless charging is quicker and easier, as you don't have to plug and unplug each time – you just place your device on top of your wireless charging pad.

USB socket

USB Socket

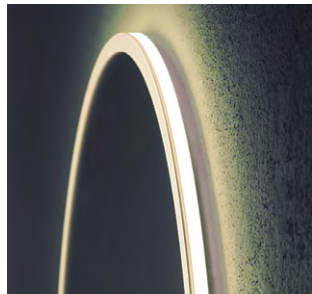

Integrated USB socket.

Plexiglas

The Plexiglas effect

The thin, recyclable and unbreakable Plexiglas structure diffuses LED lighting to create a beautiful halo effect when applied to EmporioBagno mirrors and cabinets.

Safety glass

Safety

Mirrors have a 5mm thickness and special backing to prevent the shattering of glass in the event of accidental breakage. This safety feature gives you peace of mind, especially in a home with children.

Easy to hang

Easy to install

All mirrors and cabinets are easy to install. The “X Hanging” system makes it possible to hang some mirrors vertically and horizontally for flexibility in your bathroom space.

STARDUST

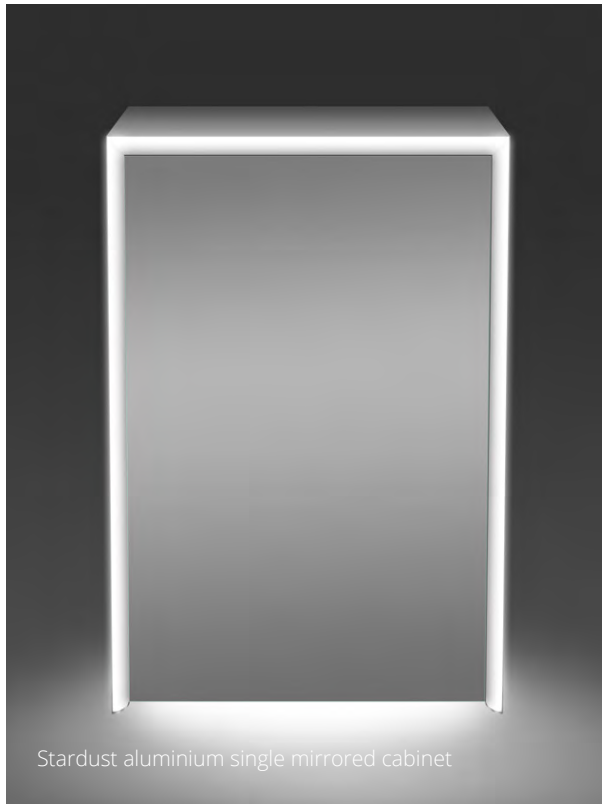

Stream free demister cabinet

- Mirror cabinet with thin Plexiglas edge illuminated by LEDs
- Available in Aluminium or Matt Black
- Double sided mirrored doors
- Demister doors
- Aluminium profile frames

MIRRORS

Mirrors and mirrored cabinets have a

2 YEAR GUARANTEE

The products in this brochure are chosen for their stylish design and high quality. Products can be bought with confidence, guaranteed free from defective manufacturing.

If you have a problem with any of the EmporioBagno products in this brochure, please see the approved retailer you purchased the products from for assistance. Your EmporioBagno retailer will be happy to assist you and will work with EmporioBagno to resolve your issue.

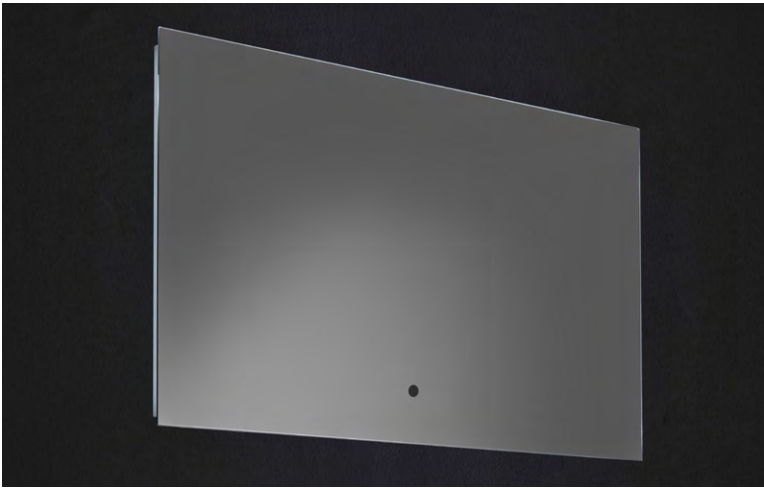

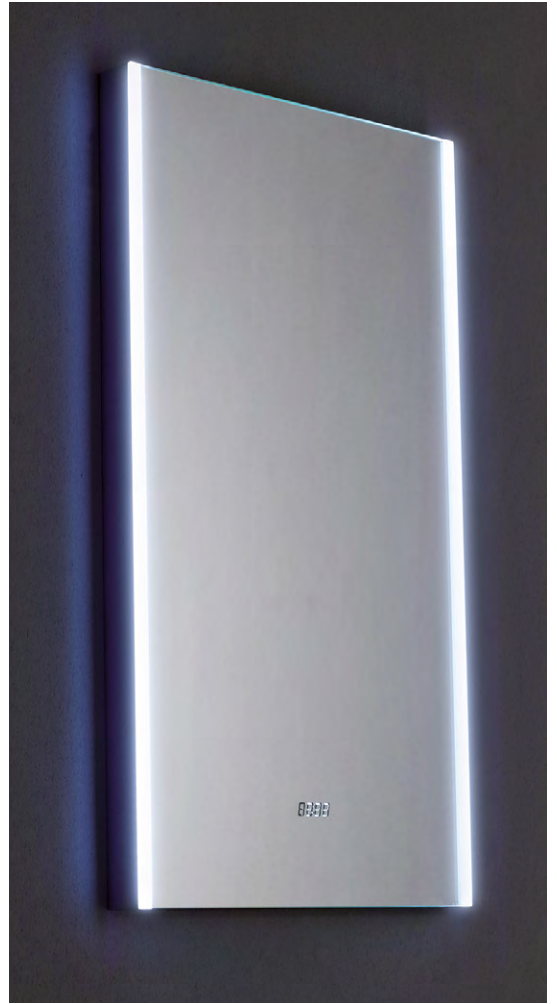

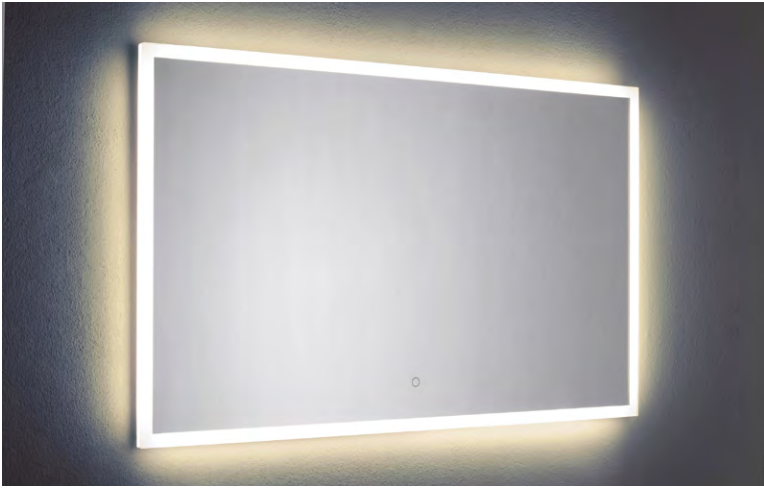

Where there is no straight forward resolution, the guarantee above applies so that you can have peace of mind.

EmporioBagno products are only covered by this guarantee when purchased from an approved EmporioBagno retailer, they are installed for private domestic purposes in the UK and they have not been modified in any way.

It is important that EmporioBagno products are maintained in accordance with any special instructions provided and are otherwise cleaned carefully with suitable cleaning products. The guarantee covers products in normal domestic use and does not cover damage, neglect, misuse or inappropriate cleaning.

Please note that the guarantee is offered to the original purchaser. The guarantee is in addition to and does not affect your statutory rights.

To allow the continual development of the ranges, EmporioBagno reserves the right to change the colour, designs and specifications of the products in this brochure without notice.
